CAREER OBJECTIVE

To leverage my skills in Python and web development, focusing on learning generative AI alongside deep foundations of HTML and JavaScript to contribute to innovative projects. I aim to apply my technical expertise, continuous learning agility, and dedication to secure a challenging internship or role in a growth-oriented environment where I can build practical software solutions.

EDUCATION

Marri Laxman Reddy Institute of Technology and Management	2023 – 2027
<i>Bachelor of Technology – Artificial Intelligence and Machine Learning</i>	
Narayana Junior College	2023
<i>Intermediate (MPC)</i>	
Narayana High School	2021
<i>Secondary School Certificate (SSC)</i>	

PROJECTS

AI Resume Analyzer – resume-analyzer-beryl-rho.vercel.app	March 2026
- Designed and developed an AI-powered resume analysis utility using Streamlit and a modern Generative AI SDK to evaluate resume compliance against job requirements. - Implemented structured text extraction and context-aware feedback loops, allowing users to rapidly identify skill gaps and format flaws. - Optimized configuration workflows, directly managing API version upgrades and automated deployments via Vercel and GitHub.	
Prompt Forge AI – prompt-forge-ai-wine.vercel.app	February 2026
- Engineered an interactive web platform utilizing TypeScript, React, and Tailwind CSS tailored for professional prompt engineering and optimization. - Integrated Large Language Model APIs to translate unstructured or vague user requirements into high-fidelity, actionable production prompts. - Deployed the production application seamlessly via Git workflow automation directly onto the Vercel hosting ecosystem.	

SKILLS & ATTRIBUTES

Programming Languages:	Python, JavaScript, HTML, CSS
Core Competencies:	Generative AI Foundations, Web Development, Proofreading, Content Writing, Data Entry, Problem Solving
Languages Spoken:	English, Telugu, Hindi
Certifications:	Completed 'Values of Code' Web Development Certification
